

# TABBERSTRINGER

...FOR CELLS DOWN TO 120 MICRONS

High performance stringer | 800 cells per hour ●

For very thin cells down to 120 microns ●

## Advantages

- High performance stringer:  
Single stringer for 800 cells per hour  
Double stringer for 1600 cells per hour
- For very thin cells down to 120 microns
- 2 or 3 busbars
- Standard ribbon stretching
- Standard ribbon bending
- Infrared soldering station with specific temperature control
- Preheating and reheating devices
- Connectable PDA
